## Global Coworking Spaces: Counts and Growth

Coworking – **shared flexible office spaces** – has grown explosively in recent years. Industry data report tens of thousands of coworking centers worldwide. For example, one **market analysis** shows roughly **16,599** coworking spaces in 2018, rising to **18,287** by 2019 ([www.servcorp.com.au](http://www.servcorp.com.au)). Growth paused during the pandemic (around 19.4k in 2020–21) then surged: estimates put **28,552** spaces by 2022 and about **34,618** by

2023 ([www.servcorp.com.au](http://www.servcorp.com.au)) ([www.servcorp.com.au](http://www.servcorp.com.au)). (Some projections reach nearly **42,000** by the end of 2024 ([www.servcorp.com.au](http://www.servcorp.com.au)).) In total, coworking is now a truly global phenomenon: as of 2021, directory listings showed coworking venues in **172 countries** ([www.coworker.com](http://www.coworker.com)).

Even with varying estimates, most researchers agree coworking now numbers in the tens of thousands. (Statista's figures are often cited: e.g. ~19.3k globally in 2021 ([www.statista.com](http://www.statista.com)) ([www.servcorp.com.au](http://www.servcorp.com.au)).) The share of coworking spaces is skewed toward a few regions. About one-third of all spaces are in Asia-Pacific (over **11,000** coworking centers ([www.corporatesuites.com](http://www.corporatesuites.com))), Europe holds roughly **6,850** ([www.corporatesuites.com](http://www.corporatesuites.com)), and North America (especially the US) is also a major market. In fact, the United States alone accounts for on the order of 6–7 thousand spaces ([allwork.space](http://allwork.space)) ([www.corporatesuites.com](http://www.corporatesuites.com)). Corporate and industry reports confirm this distribution (e.g. one analysis noted Asia-Pacific >11k spaces vs. Europe ~6.85k ([www.corporatesuites.com](http://www.corporatesuites.com)) ([www.corporatesuites.com](http://www.corporatesuites.com))).

Based on recent industry data and directories, key national counts are approximately as follows:

- **United States:** ~6,200 coworking spaces – the largest national market ([allwork.space](http://allwork.space)). (One report notes the U.S. has “more than 6,200” of the world's coworking spaces ([allwork.space](http://allwork.space)).)
- **United Kingdom:** ~6,000 spaces (the UK is one of the global leaders ([allwork.space](http://allwork.space))).
- **India:** ~2,200 spaces (making India one of the top three countries by coworking count ([allwork.space](http://allwork.space))).
- **China:** on the order of a few hundred (coworking directories list roughly ~420 spaces in China ([www.coworker.com](http://www.coworker.com))).
- **Japan:** about 450–460 spaces ([www.coworker.com](http://www.coworker.com)).
- **Germany:** around 970 spaces ([www.coworker.com](http://www.coworker.com)).
- **France:** roughly 460 spaces ([www.coworker.com](http://www.coworker.com)).
- **Canada:** on the order of 600–620 spaces ([www.corporatesuites.com](http://www.corporatesuites.com)).
- **Australia:** about 350 spaces ([www.corporatesuites.com](http://www.corporatesuites.com)).
- **Brazil:** ~337 spaces ([www.coworker.com](http://www.coworker.com)).
- **Mexico:** ~584 spaces ([www.coworker.com](http://www.coworker.com)).
- **Argentina:** ~102 spaces ([www.coworker.com](http://www.coworker.com)).

Other countries typically have smaller coworking sectors (dozens or low hundreds of spaces each), but the industry has a presence on every continent. For example, Middle East markets like the UAE have on the order of 170–180 spaces ([www.corporatesuites.com](http://www.corporatesuites.com)), and Africa overall has “more than 250” coworking centers ([www.corporatesuites.com](http://www.corporatesuites.com)). In summary, coworking spaces number in the tens of thousands worldwide ([allwork.space](http://allwork.space)) ([www.servcorp.com.au](http://www.servcorp.com.au)), with the United States, India, the UK, and other major economies comprising the largest shares of that total ([allwork.space](http://allwork.space)) ([allwork.space](http://allwork.space)).

**Sources:** Industry reports and directories provide the above estimates ([www.servcorp.com.au](http://www.servcorp.com.au)) ([allwork.space](http://allwork.space)) ([allwork.space](http://allwork.space)) ([www.corporatesuites.com](http://www.corporatesuites.com)) ([www.corporatesuites.com](http://www.corporatesuites.com)) ([www.corporatesuites.com](http://www.corporatesuites.com)) ([www.corporatesuites.com](http://www.corporatesuites.com)), which reflect the rapidly evolving coworking market. The figures above combine several recent studies and listings (e.g. **Statista** projections and **Coworker.com** directory counts) to give a current global picture.
